Dear Parents

At **Happy Kidz** we understand that your child's education and care is a priority and that choosing the correct school is a big decision. Our early childhood educational programmes include a sound curriculum together with knowledgeable child care professionals who meet the needs of children at every age and stage of their development.

We also understand the needs of working parents. Our back-up care and after school programmes enable parents to go to work knowing that their children are happy, safe and well-cared for, in a warm and loving environment.

We adopt different programmes for each section of the school, in accordance with the age and stage of the child. Our toddler class provides many opportunities to learn and explore. Our classrooms are organised into learning centres to engage children in learning through play while gaining independence.

Our teachers communicate with parents daily, to ensure we are working together on important milestones such as potty training and language development and also to ensure your child's daily needs are met. We guide your child's natural curiosity into meaningful learning experiences. Teachers utilise assessment tools to document daily observations, develop new opportunities and ensure the progression of development and learning.

The toddler classroom provides a structured daily schedule to help your young child learn. Each classroom provides structured activities, story time, music and movement, guided play, meal times and a rest time.

Daily Lesson Plans engage your toddler in the following areas:

- Group Story Time
- Social Skills
- Gross motor development
- Fine motor development
- Language development
- Sensory/Discovery
- Outdoor Play
- Math Concepts and manipulatives

At the age of 2 years, your child will be progressed into the Toddler class, ensuring that his/her advancing needs are being met.

We adopt a holistic approach to your child's development. This includes recognising that you, as a family, play a vital role in our school, as you want the best for your child, and we want the best for the children in our care, so we share a mutual goal. One of the cornerstones of **Happy Kidz** is mutual respect and understanding.
